

PSM Annual General Meeting Report

The PSM Annual General Meeting was successfully held today, March 30, at 11:00am at the association's clubhouse.

The meeting began with an opening speech by the President, who expressed his apologies for the relatively fewer photography activities in 2023 and 2024. He urged the newly elected committee members to work together to enhance the association's development and elevate the quality of activities. He also shared his personal black-and-white photography exhibition on February 15, which received overwhelming support and recognition from the audience. He was deeply gratified, as this exhibition was not only a personal achievement but also a significant milestone for the association in international photography exchange.

Subsequently, the administrative and financial reports were unanimously approved by all attending members.
